Indian Institute of Technology Indore
Presents

Research & Industrial Conclave

*Bridging Academia and Industry for a Sustainable Future.*

Theme

Emerging Technologies for a Sustainable Future

OUR VISION

The Academic Council, under the Students' Gymkhana of Indian Institute of Technology Indore, in association with the IEEE Students Branch, is planning to put together an event to foster research practices, strengthen our ties with the world of science and technology and aspiring people from all over the world. There will be a series of events modelled to nurture students' minds and equip them with the knowledge that helps them in the real world. This Conclave is a blend of thought-provoking activities and interactive sessions.

OUR OBJECTIVE

- The Academic Council has on-boarded people with outstanding records in various emerging fields. Students will benefit from the knowledge and insights of these distinguished personalities through this event.

- This event also endorses interdisciplinary activities that can help the students to seek their interests and help them materialize their thoughts.

- The event also includes programs where young minds have to put down solutions and possible alternatives for global problems. The event is a concoction of industry experts and people with tremendous experience.
